High performance beds for deeper, healthier sleep
Sealy possess a rich heritage that dates back to 1881. Over 130 years later, it has evolved into the world’s number one bed brand operating in over 50 countries, and has sold over 150 million beds worldwide.

Sealy beds are handmade in the heart of Cumbria, on the edge of the Lake District. When you create something in such beautiful surroundings, it’s a constant reminder that you want things to stay that way. That is why Sealy UK has a Zero to Landfill policy and is a Carbon Neutral organisation.
SPORTING success and sleep are intrinsically linked. Whether you’re in training or recovering from injury, sleep is vital for your health and wellbeing as it restores the brain and activates the healing process, rehydrating your spinal discs. But don’t just take Sealy’s word for it; the bed manufacturer is the brand of choice for a whole host of the UK’s biggest sports professionals - helping them to achieve the best sleep they possibly can with a view to achieving sporting excellence.

Sealy are proud to sponsor the 2018 Super League Champions and 2017 World Club Champions, Wigan Warriors. Sales and Marketing Director, Neil Robinson, says “Sleep plays such a crucial role in ensuring optimum fitness and sporting excellence, so we are delighted to work in partnership with the club to help the champions get the rest and support they need.”

LINFORD CHRISTIE OBE
Olympic, World, European and Commonwealth 100m Champion
“As an athlete, sleep is extremely important, especially for recovery. Just like food, it is really important to get a quality night’s sleep, pre and post training, or competing.”

JAMIE ROBERTS
Welsh International Rugby player
“A bad night’s sleep may not seem like a big deal, but if you add up the discomfort over days, weeks and months, it can have a significant negative impact. My Sealy bed has undoubtedly allowed me to train harder and better.”

SIMON LAWSON
Paralympian
“If you haven’t recovered from training the day before, you simply cannot perform to your potential which lowers your training capabilities throughout the day. My Sealy mattress is vital when it comes to my sporting success due to its comfort and support. I’d go as far as to say that it helps me train at my very best.”

PHIL ‘TUFFERS’ TUFNELL
Former English cricketer, turned TV personality
“Sleep really does play a major role when you’re training hard and competing in your field. Getting enough rest was always top on my list of priorities, because it really did have an impact.”

BURNLEY FC
Sam Vokes, Striker
“As a professional player, my training regime is rigorous. I have to be at my best constantly, both mentally and physically. I can really feel the difference between a good and bad night’s sleep and this is something which I take very seriously.”

WORLD OF SPORT

SPORT

| 3 |
When launched, Sealy’s revolutionary Hybrid Collection was hailed as the most innovative development in bed technology in years.

With innovation comes evolution. The next generation Hybrid range embraces the most profound advancements in sleep technology, with an additional ground-breaking feature - no need to turn or rotate... ever.

Simply put the mattress in place and enjoy.

The stunning new minimalistic designs all contain Geltex®, our unique, gel-infused foam, providing breathability, pressure relief, comfort and support and Adaptive®, an intelligent textile which responds dynamically to environmental changes like temperature and moisture.
POCKET PERFECTION 2200
1400 pocket springs combined with 800 mini pocket springs. 6cm Geltex and features Unirail. Sealy Smart Fibres and Adaptive.

POCKET SERENITY 1400
1400 pocket springs. 6cm Geltex and features Unirail. Sealy Smart Fibres and Adaptive.

FUSION
1400 mini pocket springs combined with the Posturetech CS spring system. 6cm Geltex and features Unirail. Sealy Smart Fibres and Adaptive.

The Fusion is shown on an Ottoman base.
POCKET

The award-winning Pocket range encompasses all the support you would expect from Posturepedic Technology, with the luxurious sleeping experience of a pocket sprung bed. You truly can have the best of both worlds.

Add to this Sealy’s unique Smart Fibres for a Cool, Fresh, Dry and Hypoallergenic microclimate and you can really relax and breathe easy.

There are three different versions of each model in the Pocket range - one containing GELTEX®, an innovative combination of extremely elastic gel and air-permeable foam, Sealy’s most advanced sleeping material available, another with LATEX, which allows the mattress to spring back into shape, ensuring that you are able to find your most comfortable sleeping position and a third with WOOL, which provides ultimate, natural breathability, with excellent cooling properties.
PADOVA WOOL DELUXE 2200

PADOVA LATEX 2200

PADOVA GELTEX 2200

The Padova Latex 2200 is shown on a Low Base option.
The trustworthy consumer champion, Which?, first hailed the Sealy Teramo 1400 ‘best in test’ back in 2015. In 2016, they described it as the ‘best mattress we’ve seen in years’. Now, in 2019, Which? have heaped further praise on this outstanding mattress... what more can we say?

Each headboard and our divan bases now come in eight fabric options, including; Stone, Malt, Peat, Fawn, Pebble and Dark Steel plus new additions Blush and Mink.
DIVAN BASE OPTIONS

90cm BASE OPTIONS
These bases are delivered as one piece. Select one from the illustrations below:

- G-TYPE
- E-TYPE
- O-TYPE* (Ottoman)

*The 90cm Ottoman base is 90cm x 200cm.

LOW BASE OPTION
A low base option (base depth 25cm rather than 34cm) is available for mattresses from all collections.

120cm, 135cm and 150cm BASE OPTIONS
These bases are delivered in two halves split horizontally (except the Ottoman base which is split vertically). The illustrations below are each half of the base. The full base can be made in the following combinations: AA, BA, DA, DD, BD or OO.

- A-TYPE
- B-TYPE
- D-TYPE
- O-TYPE* (Ottoman)

*The Ottoman bases are not available in the 120cm size.

180cm BASE OPTIONS
These bases are delivered in two halves split vertically. The illustrations below are of half of the base. The full base can be made in the following combinations: GG, EE, HJ or OO.

- G-TYPE
- E-TYPE
- H-TYPE
- J-TYPE
- O-TYPE* (Ottoman)

CREDENTIALS
Sealy are exceptionally proud of the superior standards we set, which is why we only align ourselves and work in partnership with those who can also bring benefits to our customers. We are fortunate to be supported by some of the country’s leading organisations:

- Sealy have been named Interiors Monthly ‘Bed Manufacturer of the Year’ for the past 10 years.
- Sealy currently holds the Which? Best Buy for our Pocket Teramo 1400 mattress.
- Sealy is an AIS Gold Standard Award Winner.
- This award is presented to the ‘event’s champion exhibitors in recognition of the quality and commercial value of their star products’.
- Sealy is endorsed by Allergy UK for the elimination of house dust mites.
- Sealy Smart Fibres are endorsed by Allergy UK for the elimination of house dust mites.
- Sealy is an AIS Gold Standard Award Winner.
- BSI Certified Quality Management System.
- Sealy UK is now Carbon Neutral - for both production and distribution. Carbon emissions caused by us are balanced out by funding an equivalent amount of carbon savings elsewhere in the world.

Our heritage is hugely important to us. We are very fortunate to have our home cushioned in the beautiful surroundings of the Lake District. We take great pride in supporting the wonderful county of Cumbria and the communities, charities, businesses and residents who occupy it.

At Sealy we take our environmental responsibility very seriously and we are incredibly proud to declare a zero to landfill policy. To achieve this goal has taken a substantial amount of investment in time, management and resource, but an investment we feel incredibly worthwhile.

Sealy UK is a member of FISP, the mark of sustainable excellence.

Carbon Neutral Organisation

Sealy is endorsed by the Orthopaedic Advisory Board

Hand Made in CUMBRIA

Zero TO LANDFILL
SEALY - WORLD LEADERS IN THE SCIENCE OF SLEEP

At Sealy we invest in far more than just producing outstandingly good beds. Our worldwide presence means we can call upon technological developments around the globe to bring the most advanced sleep systems to the bedrooms of our customers in the UK.

**Sealy Smart Fibres** provide a cool, fresh, dry and hypoallergenic sleeping environment, and are endorsed by Allergy UK.

**Geltex** - an innovative combination of an extremely elastic gel and air-permeable foam. Soft and durable, it’s uniquely absorbent and naturally breathable - to preserve your comfort throughout the night.

**Tencel** - eco-friendly fibres help keep you cool and dry. The natural attributes do not give bacteria a chance to grow, giving a pleasantly dry, irritation-free sleeping environment.

**Purotex®** micro capsules release friendly bacteria into the fabric of the mattress, stopping the growth of fungi, so house dust mites cannot survive.

**Adaptive** is an intelligent textile which responds dynamically to environmental changes like temperature and moisture.

**Memory Foam** moulds to the contours of your body and offers excellent support and pressure relief. Sealy’s memory foam benefits from Smart Fibres to prevent overheating.

The natural elasticity of a **Latex** mattress allows it to spring back into shape as you move and find your most comfortable sleeping position. Latex is both anti-bacterial and anti-fungal, creating a fresh sleeping environment.

**Wool** - provides the ultimate breathability, with excellent cooling properties - naturally.

**Edgeguard** is a high density foam strip, placed inside the edge of the spring unit, providing extra firm edge-to-edge support and durability.

Sealy’s unique, patented **Unirail** surrounds the pocket springs on all four sides for added durability, plus it gives total edge to edge support, maximising the sleeping area.

Sealy’s unique **Posturetech CS (Core Support)** spring system offers orthopaedically superior support without compromising comfort.

Sealy’s unique Posturepedic **Zonal Construction** Support System provides greater ‘push back’ support to areas of the body where weight is concentrated (such as the lumbar region). This zonal approach helps to support and align the spine in its natural shape.

The **Sealy Pocket** offers all the support of Posturepedic. All the comfort of Pocket. Sealy’s pocket springs are heat treated for greater support and durability.
